

Bergantino Audio HDN210 Speaker Cabinet

HDN210 'High-Definition Neo' 2-10" & Tweeter Bass Guitar Loudspeaker

The Bergantino Audio Systems HDN series lightweight speaker cabinets retain the great Bergantino Audio sound and give you the weight savings but not at the expense of tone and performance. These are the finest lightweight speaker cabinets made. The precision tuned cabinet architecture and the enclosures are built with the highest quality lightweight Italian poplar plywood (with Baltic birch baffle boards) selected to our demanding specifications. This lightweight cabinet material helps reduce the overall cabinet weight. The exterior of these speaker cabinets are finished in a durable bronco tolex covering for long life and cabinet protection. A rigid black grille is added to protect the drivers from damage and to minimize the coloration and tone reduction found with a cloth speaker grille.

The internal components used are extremely high quality and they are of Bergantino design. No 'off-the-shelf' parts are used. Our new design Neodymium magnet woofers are used for the low frequency section of the HDN series cabinets. These Neodymium drivers have a punchy low-end and a very sweet midrange that is placed a little more forward in the sound field when compared to the HD series. Fretless and upright players will often prefer the HDN cabinets because of how the midrange 'speaks' with their instruments. The HDN series cabinets have a new design high intelligibility tweeter mated to the woofers through a custom designed phase-coherent crossover with a tweeter control. Because of the increased cost of the Neodymium magnet material and imported wood for the cabinetry, the HDN series speakers cost more than the HD series, but may just be the right match for your playing style and weight needs.

- Woofer: 2-10" Neodymium Magnet Woofers
- Tweeter: High Intelligibility HDN Series Tweeter
- Cabinet Design: Ported
- Cabinet Material: Lightweight Italian Poplar w/ Baltic birch baffle
- Cabinet Covering: Black Bronco Tolex
- Impedance: 8-ohms
- Power Handling: 400W RMS
- Crossover: Custom Phase-Coherent Crossover w/ Tweeter Control
- Frequency Response: 40Hz – 12kHz
- Sensitivity: 99db @ 2.83v / 1-meter
- Dimensions: 22-3/4"H x 18-1/2"W x 12-1/2"D
- Weight: 33 Lbs.
- ProNet Price: \$999.00

Accessories: Optional Padded Cover Available
